REPUBLIC OF KENYA

COUNTY GOVERNMENT OF NYAMIRA

FOURTH QUARTER BUDGET IMPLEMENTATION REPORT FY 2023/2024

JULY 2024

FOREWORD

As we embark on the journey of progress and development, it is with great pleasure that I present to you the Fourth Quarter Implementation Report of the County Government of Nyamira.

This report encapsulates the endeavors, achievements, and challenges encountered during the fourth quarter. It underscores our relentless pursuit of excellence across various sectors including healthcare, education, infrastructure, agriculture, and social welfare. Moreover, it highlights our collaborative efforts with stakeholders, development partners, and the community at large to foster inclusive growth and foster a conducive environment for all

Throughout this quarter, we have continued to prioritize the delivery of essential services, the execution of development projects, and the implementation of policies aimed at improving the lives of our residents. Despite the various challenges we may have encountered, our resolve remains steadfast, guided by the principles of transparency, accountability, and inclusivity.

Within these pages, you will find a comprehensive overview of the progress made across various sectors, including healthcare, education, infrastructure, agriculture, and governance. Each achievement and milestone highlighted in this report reflects our collective efforts and the tireless work of our dedicated team.

As we reflect on our accomplishments thus far, we must also acknowledge the areas where improvements are needed and challenges persist. It is through honest assessment and constructive feedback that we can chart a course towards greater efficiency and effectiveness in service delivery.

I extend my sincere gratitude to all our stakeholders, including the residents of Nyamira County, our partners in development, and the hardworking men and women of the county government, whose unwavering support and dedication continue to propel us forward.

As we look ahead, let us remain steadfast in our commitment to realizing the vision of a prosperous and inclusive Nyamira County. Together, we can overcome any obstacle and build a brighter future for generations to come.

DR. GEOFFREY MORARA NYAKOE COUNTY EXECUTIVE COMMITTEE MEMBER, FINANCE, ICT AND ECONOMIC PLANNING ACKNOWLEDGEMENT

We would like to express our sincere appreciation to all those who have contributed to the preparation

and compilation of this fourth quarter Implementation Report of the County Government of Nyamira.

First and foremost, our gratitude goes to the dedicated members of the County Executive Committee,

County Assembly, and all departmental heads for their invaluable insights, expertise, and tireless

efforts in driving forward our development agenda.

We also extend our thanks to the various government agencies, development partners, and non-

governmental organizations for their collaboration, technical support, and contributions towards the

implementation of key projects and programs.

Special recognition goes to the hardworking civil servants and frontline workers who have remained

steadfast in their service delivery, particularly during these challenging times. Your unwavering

commitment to the well-being of our citizens is truly commendable.

We are also deeply thankful to the residents of Nyamira County for their patience, cooperation, and

active participation in community development initiatives. Your feedback and engagement are

instrumental in shaping our policies and programs for the betterment of our county.

Last but not least, we acknowledge the Almighty for His grace, guidance, and blessings throughout

our endeavors.

Thank you all for your continued support and dedication to the advancement of Nyamira County.

Dr. CPA ASENATH MAOBE

COUNTY CHIEF OFFICER,

CHAPTER ONE

1.0 INTRODUCTION

This chapter gives a brief overview of the County. It explains in details the background information, the Budget Implementation Report at a glance in terms of objectives, significance and the legal provision.

1.1 BACKGROUND INFORMATION

1.1.1 County Overview

Situated in Western part of Kenya, Nyamira County has historically evolved from different and previous administrative units, creations and boundaries since independence. It is indeed formed part of one of the divisions of the larger Kisii district way back in 1970s. Nyamira as a division became a full district in 1987 curved out of the Kisii district; this had ever existed with various administrative and political boundaries. Before the devolution, Nyamira had three constituencies, five districts, 14 divisions, 38 locations and 90 sub-locations. With the advent of the devolution in 2013 due to the new constitution, Nyamira forms part of the 47 County Governments in Kenya with one extra Constituency created and 20 electoral wards.

The County is predominantly occupied by the Gusii Community. However, the northern and eastern parts of the County have got some different ethnic significance being Luos and Kipsigis respectively. These two ethnic groups are considered the minority in the county with the Luos further considered as the marginalized group. Unlike the Luo Community who permanently stays in the county, most of the Kipsigis are on transits basically because of the trade exchange. The Gusii community in the County is further classified into two major sub-clans being the Abagirango and the Abagetutu with several micro clans that trickle down into the extended and nuclear families.

Nyamira County is a member of the Lake Region Economic Bloc. The Lake Region Economic Bloc is made up of Bungoma, Busia, Homa Bay, Kakamega, Kisii, Kisumu, Migori, Nyamira, Siaya, Vihiga, Nandi, Bomet, Trans Nzoia and Kericho Counties. The common understanding of the Bloc is for strategic connections between Counties with shared interests seated in a desire for

mutual benefit can be an effective and intelligent means of increasing the possibility of creating notable development impact across several counties. The existence of other regional development urgencies like the Lake Basin Development Authority and Lake Victoria South Water Works Development Agency has spared development in their line interventional areas in the County. The Agencies cover Bomet, Homa-Bay, Kericho, Kisii, Migori, Nyamira, Kisumu and Siaya Counties.

The County has inter county relations; along the Homabay County (Rachuonyo) border there is ethnic intermarriages, this is evident in Miruka and Nyamusi areas that has promoted peace coexistence. Miruka, Chebilat and Keroka markets along the borders of Homabay, Bomet and Kisii counties respectively have promoted exchange of goods and services for the people living along these borders. The existence of the tea zones in Kericho and Nyamira counties has promoted employment among the tea factories and the dwellings.

1.1.2 County Position and size

Nyamira County is one of the forty seven Counties in Kenya. The County borders Homabay County to the North, Kisii County to the West, Bomet County to the East, Kericho County to the North East and slightly Narok County to the South. The County covers an area of 897.3km2. It lies between latitude 00 30and 00 45south and between longitude 340 45 and 350 00 east. The County neither borders any international Country nor does it have any major water bodies.

1.1.3 Physical and Natural Conditions

Nyamira County is predominantly hilly known as the Gusii highlands. The Kiabonyoru, Nyabisimba, Nkoora, Kemasare hills and the Manga ridge are the most predominant features in the county. The two topographic zones in the county lie between 1,250 m and 2,100 m above the sea level. The low zones comprise of swampy, wetlands and valley bottoms while the upper zones are dominated by the hills. The high altitude has enabled the growth of tea which is the major cash crop and income earner in the county.

The permanent rivers and streams found in the County include Sondu, Eaka, Kijauri, Kemera, Charachani, Gucha (Kuja), Bisembe, Mogonga, Chirichiro, Ramacha and Egesagane. All these

rivers and several streams found in the County drain their water into Lake Victoria. River Eaka is important to Nyamira residents as this is where the intake of Nyamira water supply is located. On the other hand river Sondu has a lot of potential for hydro-electricity power generation which if harnessed can greatly contribute towards the countys economic development and poverty reduction efforts. The levels of these rivers have been declining over years due to environmental degradation especially improper farming methods and planting of blue gum trees in the catchments areas and river banks.

The major types of soil found in the County are red volcanic (Nitosols) which are deep, fertile and well-drained accounting for 85 per cent while the remaining 15 per cent are those found in the valley bottoms and swampy areas suitable for brick making. Though the red volcanic soils are good for farming, they make construction and road maintenance expensive.

The County is divided into two major agro-ecological zones. The highland (LH1 and LH2) covers 82 per cent of the County while the upper midland zone (UM1, UM2 and UM3) covers the remaining 18 per cent. Although the vegetation in the County is evergreen, there is no gazetted forest. The tree cover in the county is mainly agro-forestry. Efforts are however, being made to gazette and conserve the hilltops. These have been encroached due to high population pressure. There is need to expand the forest cover throughout the county which will be a source timber and wood fuel that will earn the community income resulting to poverty reduction. Emphasis is being made on gravellier that benefits the farmers more than the blue gums.

1.1.4 Administrative and Political Units

The National and the County governments are a creation of the Constitution of Kenya 2010. Administratively both the governments are divided into 5 sub-counties. Under the national government, the County is further divided into 14 divisions with 53 locations, 115 sub locations and 1,555 villages while the County government has got its administrative units further divided into 20 wards. Politically, the County is an electoral unit with one elected Governor and his deputy being the Chief executive of the County Government. There are six elected Members of the National Assembly, Four representing the County's four constituencies. The other two elected

members represent the County at the senate and as women representative. The County also has twenty County Assembly Wards represented by the Members of the County Assembly.

1.1.5 Demographic Features

Using the 2019 Population and Housing Census report, the inter census population growth rate is estimated at 1.2 percent annually which is below the national growth rate at 2.2 percent. This means that the County population estimate at the beginning of the plan period being 2022 is 653,515 with males being 317,109 and females at 336,407. The population is expected to increase to 665,477 with males being 321,014 and females being 344,463 during the midterm period 2025. At the end of the plan period, population is expected to increase to 672,337 with 323,301 and 349,035 being males and females respectively.

1.2 THE BUDGET IMPLEMENTATION REPORT AT A GLANCE

1.2.1 Objective of the Budget Implementation Report

The objective of the Budget Implementation Report (BIR) is to offer insight of the previous Financial and non-financial performance and provide useful guidance on the analysis of the overall County Review Outlook Paper. This eventually depicts on how this impacts the County fiscal responsibilities principles. The Budget Implementation Report Explains in details the performance on revenue, expenditures in programmes and economic classifications, programme performance and statuses of the capital projects planned for the implementation in the previous year.

1.2.2 Significance of the Budget Implementation Report

The Budget Implementation Report ensures that the County Government depicts facts on the actual performances on the financial and non-financial that eventually is used as the baseline information in making forecasts based on both the County and the national economic outlook and their likely impact on the level of future revenues and prompts the County Government to set preliminary sector ceilings in light of this review of revenue.

1.2.3 Legal Basis for the First Quarter Budget Implementation Report 2023/2024

The Budget Implementation Report (BIR) is prepared in accordance with Section 166 of the Public Finance Management (PFM) Act 2012 which states that;

- 1) An accounting officer for a county government entity shall prepare a report for each quarter of the financial year in respect of the entity.
- 2) In preparing a quarterly report for a county government entity, the accounting officer shall ensure that the report—
 - (a) Contains information on the financial and non-financial performance of the entity; and
 - (b) Is in a form determined by the Accounting Standards Board.
- 3) Not later than fifteen days after the end of each quarter, the accounting officer shall submit the quarterly report to the County Treasury.
- 4) Not later than one month after the end of each quarter, the County Treasury shall—
 - (a) Consolidate the quarterly reports and submit them to the county assembly;
- (b) Deliver copies to the Controller of Budget, National Treasury and the Commission on Revenue Allocation; and
 - (c) Publish and publicize them.
- 5) In the case of an entity that is a county corporation, the accounting officer for the corporation shall also submit a copy of the quarterly report to the County Executive Committee member responsible for the corporation, who, upon approving it, shall submit a copy to the County Treasury.

2.1.13 DEPARTMENT OF NYAMIRA MUNICIPALITY

a) Departmental Background information

Nyamira Municipality came into existence by the implementation of the Urban Areas and Cities Act 2011(amended). The act provides that all urban areas designated as the County Headquarter be upgraded to Municipality status despite not meeting the minimum threshold of infrastructure and population. In 2018, H.E The Governor John Obiero Nyagarama, declared Nyamira a Municipality in accordance with the provisions of the approved Nyamira Municipality charter. The

municipality is run by board members appointed and gazetted as per the requirements of the UACA 2011. Nyamira Municipality covers an area of approximately 155 Km². According to the 2009 Kenya Population Housing Census (KPHC), Nyamira with an estimated population of 164,101. It covers 3 sub counties namely; Nyamira North, Nyamira South & Borabu, and is made up of 7 wards namely Township, Bonyamatuta, Bogichora, Bomwagamo, Bosamaro, Nyamiaya and kiabonyoru.

2.1.18 COUNTY ATTORNEY

A. Background

The Office of the County Attorney was established by the Office of the County Attorney Act, 2020. The office, as established, comprises of the County Attorney, who is the Head of the Department, the County Solicitor who is the Accounting Officer, County Legal Counsel, Legal Clerks, Office Administrator and support staff.

B. Vision

To be the epitome in the provision of excellent professional legal services to County Governments in Kenya

C. Mission Statement

To provide timely, objective and reliable legal support to the County Government of Nyamira and its department on all legal matters that may be arise in the execution of their constitutional and statutory mandate.

D. Functions of the Office of the County Attorney

The County Attorney, pursuant to section 7 of the Office of the County Attorney Act;

- *i*) Is the principal legal adviser to the county government;
- ii) Attends meetings of the County Executive Committee as an *ex-officio* member of the Executive Committee; *iii*) On the instructions of the county government, represents the county executive in court or in any other legal proceedings to which the county executive is a party, other than criminal proceedings;
- *iv*) Advises departments in the county executive on legislative and other legal matters;
- v) Negotiates, drafts, vets and interprets documents and agreements for and on behalf of the county executive and its agencies;
- vi) Is responsible for the revision of county laws; vii) Liaises with the Office of the Attorney-General when need arises; and
- *viii*) Performs any other function as may be necessary for the effective discharge of the duties and the exercise of the powers of the County Attorney;

E. Challenges faced in the office of the County Attorney and way forward

Challenges	Way forward
i) <u>Budget constraints</u>	
The allocation for Office of the County Attorney in the past financial year was inadequate hence the office was not able to carry out its mandate effectively. The budget constraints led to absence of sufficient stationery, facilities and training programmes for the staff hence reducing efficiency in the office's operations.	Provision of sufficient budget allocation will enable the office increase the number of staff, capitalize on infrastructure and develop staff capacity for efficiency
ii) <u>Staffing Constraints</u> The Office of the County Attorney has in the last financial year parted with Two (2) critical support staff. This has created gaps in discharging various functions of the office effectively in order to respond to the ever-growing demands and needs of the County Government.	Deployment of clerical and support staff is imperative in aiding the Office discharge its core functions.

iii) <u>Lack of Office Equipment and</u> infrastructure

Essential secretarial services and equipment lack in the Office of the County Attorney. Computers, photocopying machines and scanners are examples of equipment that the office lacks. There is currently only one desktop workstation computer pitched at the Registry and none for the other staff including the County Attorney, County Solicitor, Legal Advisor and Legal Counsel; Further, the office lacks internet connectivity which is now essential in carrying out legal services like Virtual Court sessions, Efiling and Research. The importance cannot be overstated. The Office's depository of all County laws and legal documents and agreements is yet to be operationalized this resulted to difficulty in keeping orderly track of and efficient retrieval of

County laws and legal documents and agreements;

Perceptibly, enhanced and improved infrastructure would go a long way in supporting the staff to discharge their duties in timely fashion. Indeed, the office is in urgent need of expedited procurement of Computers, photocopying machines and scanners. Internet installation is also critical.

iv) <u>Lack of departmental Consultation and Cooperation</u>

The County Government has been sued in the past due to lack of consultation with the Office of the County Attorney. This state of affairs exposes the County to unnecessary litigation.

Secondly, the Office does not get expedited responses and full cooperation from various departments once a case is filed against the county Government. Despite various communications, departments do not treat the issues raised with the urgency and seriousness required.

Thirdly, it has been noted that officers blatantly refuse to sign Affidavits or record witness statements on behalf of the County Government.

Departments are encouraged to appoint their own staff that will liase with the Office of the County Attorney to ensure timely responses and production of documents to the Office including timely signing of affidavits.

Further, departments ought to involve the office in preparation of contracts, Bills,

MOUs and any other Legal documents

v) Failure to comply with Court Orders	
Court Orders are not given in vain. However, the office faces the challenge of County Officers disregarding Court Orders and thereby exposing the County Government to Contempt of Court Proceedings and costs.	Court Orders must be obeyed.
vi) Pending bills and obligations.	
The office is grappling with several pending bills arising from legal services offered to the County Government. Failure to settle the pending bills results to accrual of interests which place a greater burden to the County Government in the long run.	Departments are encouraged to create budgetary provisions and allocations for legal bills during the budget making process. Lack of budget provisions leads to ballooning of legal pending bills.

F. Stakeholders and their contributions in implementing the Budget

Stakeholder	Contributions/Roles to the Office of the County Attorney
The Judiciary	Litigation and Dispute Resolution

Table 3: Revenue challenges and way forward

No.	Challenges	Proposed Way Forward
1.	Political interference in the operations of markets	Management is continually cooperating with the business community the various departments concerned
2	Resistance from Boda Boda operators to pay taxes claiming that their demands have not been accomplished. This has persisted for the past 8 years.	Management has held consultative meetings with the Boda Boda leadership at the county and sub county levels. Currently the Boda Boda operators have started paying for the motorbike stickers. There will be enforcement to net on the defaulters.
3	Outdated county Valuation roll as the one in use covers only a few parcels of land. Further, it is an old (obsolete) roll inherited from former councils.	There is Budget allocation for county valuation roll in the current financial year, and the county property and rating Act is in draft form, it is being processed and will be submitted to the county assembly for approval.
4.	Inadequate education and awareness to our tax payers on the general importance of endeavoring to, not only paying taxes/levies but also making the same promptly.	We have decentralized revenue collection to departments with more emphasis on 6 key departments namely; Trade, Health, Lands & physical planning, Public service management, gender and agriculture. There has been ongoing sensitization through local radio stations, notices to the general public on need to pay taxes, cashless [payment modes and payment deadlines.
5.	Internet connectivity challenges	Management has engaged Safaricom Limited to provide internet services in the county which is more reliable. There has been continuous training of our revenue collectors through the department of ICT to ensure improved efficiency
7	Enforcement Challenges	Management is in consultation with the department of Legal services to work on the possibility of establishing county courts to improve on compliance since defaulters will be dealt with effectively without delay. Mapping of all structured revenue sources is currently ongoing.

		Continuous rotation of officers in revenue collection to ensure that officers do not overstay in same collection points.
8	Inadequate identification of revenue collectors	Management has changed identification for revenue collectors from the previous yellow overcoats to current red overcoats. All revenue collectors have identification Tags and are required to be properly identified while on duty.
9	Cash handling	Management is embracing the cashless revenue collection modes (MpesaPaybill, (004646), Mpesa Xpress, USSD 8856#, &Direct Bank Deposits This will minimize the risk associated with handling cash

CHAPTER FOUR

COUNTY MAJOR ACHIEVEMENTS AT AGLANCE 2023/2024 4.0 INTRODUCTIONS

This chapter explains in details summary of the departmental achievements at a glance supported by pictorial evidences in the period under review.

4.1 COUNTY ASSEMBLY

4.1.1 Departmental Achievements

a) Constructed County Assembly Headquarters, car park, perimeter wall and Gate House to the County Assembly

Constructing a County Assembly Headquarters centralizes local governance, fostering efficient coordination and communication among county officials. Improved facilities, encompassing well-equipped chambers, offices, and public engagement spaces, enhance the assembly's operational efficiency. The headquarters also facilitates a streamlined workflow, separating legislative activities from other county functions. Technological integration further modernizes the assembly, promoting transparency through digital communication and live broadcasting of sessions.

b) Constructed the Speaker Residence Phase II

This will fortify the efficiency and prestige of the legislative branch. Foremost among these reasons is the imperative to enhance security and safety measures, acknowledging the pivotal role of the Speaker and the need to provide a secure environment for the execution of official duties.

Phase II also signifies a commitment to the dignified representation of the Speaker's position. The construction endeavors to align with official protocols and stature, underscoring the symbolic importance of the Speaker's residence within the legislative framework. Additionally, functional requirements dictate the need for expanded facilities, offering the Speaker ample space for official duties, meetings, and events

4.5 DEPARTMENT OF AGRICULTURE, LIVESTOCK AND FISHERIES DEVELOPMENT

4.5 CROP DEVELOPMENT

- 1. **SHEP BIZ Program**: 10 farmer groups (approximately 200 farmers reached) trained on high value horticultural crop production in Nyamira North and Nyamira South Sub counties. Mainly supported by JICA funding
- 2. **Upscaling the SHEP Approach** to 4 Other groups in the two Sub Counties using County's own resources. Through this we reached an additional 78 farmers
- 3. In the 3rd Quarter quarter mainly coincided with our long rains planting season and therefore during the issuance of subsidized fertilizers and other follow-ups by our officers, we were able to reach over 4,000 farmers using different extension methodologies. The messages to the farmers included proper fertilizer handling, applying the recommended rates, crop husbandry among others
- 4. With County own resources, we operationalized the last mile fertilizer subsidy program in 3 sub counties: Nyamira North, Nyamira South and Manga. The same will be scaled up to Masaba North in the next financial year.

The validated crop data will inform our intervention, departmental planning as well as inform the entire County's planning processes.
- 8. **Food and crop situation monitoring and reporting**. During this period, the Directorate of crops compiled and submitted 4 Monthly food security reports both to the county and to the National office(Kilimo) to inform the National food security status.

- 9. **Input quality standard checks**: In collaboration with KEPHIS regional office, the Directorate conducted rapid spot checks on agro dealers and other input suppliers. This is mainly geared towards checking on compliance and quality of farm inputs to safeguard farmers from obtaining substandard inputs. During the exercise afew agro dealer shops were found to be non-compliant and appropriate corrective measures taken
- 10. **Last mile fertilizer subsidy program**: During the period under review, with the Directorate's own resources, we re-trained 12 Officers on management of fertilizer store, redemption and e-voucher systems. This was in preparation for the directorate to operationalised the last mile fertilizer distribution program.
- 11. **General extension service delivery**: During the period under review, as a directorate, using the various extension approaches which include; individual farmer targeting, group approach, e-extension among others, we were able to reach over 2000 farmers across the entire county. The initiatives included collaboration with stakeholders within the agriculture sector.
- 12. **Disease and pest surveillance visits**: This being our peak planting season, the crops directorate conducted various pest and disease surveillance visits in various parts of the County. This is mainly to check out on disease and pest outbreaks which are very common during the planting seasons. This is done routinely in all the Wards and out of this exercise, cases of MLND and Fall armyworm outbreaks were reported. Farmers were advised on how to manage them.
- 13. **Coffee marketing**. The directorate facilitated 9 Coffee societies and 38 Estate farmers to transport their coffee to various millers. The support is mainly through provision of coffee movement permits. The directorate is also in the process of issuing renewal Pulping station licenses to all societies and estate farms.
- 14. **Planning/Management meetings**: During the period under review, the Crops directorate, under the leadership of the Chief Officer, held several management and planning meetings with the section heads to plan for directorate's activities among other issues. ii) Directorate of Transport and Mechanical Services

The department holds vital responsibilities aimed at facilitating smooth movement and ensuring safety on the roads. Its duties encompass maintaining and constructing roads, regulating public transportation services, managing traffic flow, and planning for future transportation needs. Through these efforts, it strives to enhance the overall transportation infrastructure, reduce congestion, and mitigate environmental impact.

County vehicles are usually inspected at the Department of Transport for the following reasons.

- e) Roadworthiness: The primary purpose of vehicle inspections is to ensure that vehicles on the road meet certain safety and mechanical standards. This helps reduce the risk of accidents caused by faulty vehicles.
- f) Public Safety: Ensuring that vehicles are in good condition contributes to overall public safety. Vehicles that are not roadworthy can pose risks to their occup ants as well as other road users.
- g) Environmental Impact: Vehicle inspections may include checks on emissions and other environmental considerations. Ensuring that vehicles meet emission standards helps in controlling air pollution.
- h) Prevention of Vehicle-Related Incidents: Regular inspections help identify and address potential issues before they become serious problems. This preventive approach can reduce the likelihood of breakdowns and accidents.
- i) Enforcement of Policies: Vehicle inspections serve as a means of enforcing transportation policies and regulations. They help maintain order on the roads and ensure that all vehicles adhere to the established rules.
- j) Verification of Documentation: Inspections may involve a review of vehicle documentation such as registration, insurance, and other necessary paperwork to confirm that the vehicle is legally allowed on the road.
- k) Fleet Management: Inspections are often part of a broader fleet management strategy to ensure that vehicles are properly maintained and operated efficiently.

Key Achievements

i. Designed Ultra-Modern Workshop for the county: The design of an ultra-modern workshop was undertaken to create a facility that is well-equipped, efficient, and capable of meeting the county's specific needs. This workshop will serve as a central hub for maintenance, repairs, and potentially fabrication of equipment or structures. The workshop will enhance operational efficiency, safety, and the overall capacity of the county to carry out various tasks related to its responsibilities.

The Mechanical Workshop at the Public Works offices offers a comprehensive view of the equipment and machinery used for various maintenance and repair tasks. This facility plays a crucial role in ensuring the smooth operation of public infrastructure by providing essential mechanical services and support.

A view of the Mechanical Workshop located at the Public Works offices.

ii. Conducted 102 roadworthy inspections on county motor vehicles.

d) Directorate of Disaster Management Services

Key Achievements

- a) A total of 45 fire safety compliance inspections were carried out in institutions. These inspections ensured buildings adhere to local regulations, have proper safety measures, and comply with established codes. By identifying and addressing potential hazards, these inspections contributed to emergency preparedness, occupational safety, and community resilience
- b) There were 23 responses to fire incidents. Swift and effective fire response by the county disaster team saved lives and protected property. This proactive approach contributed to overall safety and mitigated additional risks associated with fire incidents.
- c) A total of 69 fire compliance certificates was issued to business entities. This mitigated the risk of fire incidents, protect lives, and safeguard property. By issuing these certificates, the county formally acknowledged and documented the compliance of a building and businesses with established fire safety protocols.
- d) Five institutions received fire training session. This training equipped individuals with the knowledge and skills necessary to respond effectively in the event of a fire emergency. This training also enhanced awareness about fire hazards, evacuation procedures, and the proper use of firefighting equipment, reducing the risk of injuries and fatalities
- e) Personal protective equipment (PPEs) were supplied to the fire team. PPEs served as critical barrier between the wearer and potential hazards, safeguarding against injuries and occupational risks of the fire personnel.
